ABOUT AUTOMACHEF

Welcome to Automachef, a resource management puzzler where you design kitchens, pro
genius come to life! It's time to engineer tomorrow's kitchens, today!

Plan. Position. Program

Design and build automated restaurants, then program them to run like well-oiled machir
the know-how to conquer the world of automated restaurants?

Challenging Puzzles

Fine tune your mind as you tackle intricate spatial, resource management and scenario pu
it! Kitchens on fire? No problem for a smart human like you!

Multiple Brain-Tickling Modes

Take on the campaign levels, traverse your way through the business world in contracts m
sandbox test mode and play until you get your fill!

Endless Charm and Quirky Humour

All delivered in an abundance by our helplessly misguided human protagonist- Robert Per
ask questions.

Mod Support

Think you could bring some more pizazz to the table? GREAT! Step on up to the plate and
and scenario levels via Steam Workshop!
